

## Chemical Inventory

A chemical inventory is available for review on request. It is updated every three months. The inventory lists chemicals by brand name and formulation. For active ingredients see [www.cdms.net](http://www.cdms.net).

### INSTRUCTION:

Create an inventory for your spray chemicals. This inventory **must be updated within a month of movement of the stock**. You can record your quantities in pints, gallons, liters, pounds. You do not need to measure the specific weight or volume. (If you have a half empty pint jug, you can record it as one pint jug. You do not need to record it as 8 oz.)
